‘Haere Mai Ki Hauraki, Te Aute Te Awhea’

COLOUR PALETTE

Grounded in *Whenua & Wai*

Every colour was drawn from the Hauraki landscape — dark forest floor, native bush, the glimmer of tidal light. Together they communicate safety, depth, and quiet healing.

						
Pō #0d1a0e	Ngahere #162416	Uru #1e3020	Kākāriki #1a7a5a	Māramatanga #6ecfaa	Maramara #e8dfc0	Kō #f5f5f0

Background Tones — #0d1a0e · #162416 · #1e3020

The forest at rest

These three forest greens create a quiet, enveloping atmosphere. Dark backgrounds remove visual noise and invite the visitor to slow down — mirroring the experience of entering a safe, sheltered space.

Primary Accent — #1a7a5a · #6ecfaa

Growth & healing

Kākāriki and Pounamu tones carry deep significance in te ao Māori — life, renewal, the vitality of the land. The dual teal registers allow the brand to feel both grounded and alive, never cold or clinical.

Text & Warmth — #e8dfc0 · #f5f5f0

Warmth & welcome

Cream and white carry a warmth pure white cannot. They feel human and worn — like a letter, like a kōrero around a table. They keep the brand feeling inviting rather than institutional.

The Full Palette Together

You are safe here

The movement from dark to teal to warm light mirrors a journey from protection into healing. There is no harsh contrast, no alarm — only depth, movement, and quiet care.

LOGO & IDENTITY

A mark of *manaaki & mauri*

OPTIONAL

Logo Redesign – **PRICE ON REQUEST**

The redesigned logo moves away from the busy toward the essential — finding the quiet strength at the heart of this organisation.

It's a refinement of the original — the tukutuku (woven panels) form carried forward, simplified and distilled to its quiet essence. At the base, two kōru curl inward and cross, their forms embracing as if holding something gently between them. A symbol of shelter of safe hands.

DIRECTION 01

Minimal & Uncluttered

Strip back decorative elements. The mark should breathe — generous whitespace, no competing details. Simplicity signals confidence.

DIRECTION 02

Warm, Not Corporate

Avoid geometric rigidity. The logo should feel like it belongs to people, not an institution. Soft, approachable forms invite rather than impose.

DIRECTION 03

Bilingual by Nature

Te reo Māori is primary. The logo holds both the full name and the English identifier with equal visual dignity.

✓ DO

Use with generous clear space. Pair with Cormorant Garamond. Place on approved dark or cream backgrounds only.

✗ DON'T

No drop shadows, outlines, or decorative frames. Don't stretch or distort. Don't place on busy photography without a dark overlay.

TYPOGRAPHY

Words that *hold & honour*

Two voices. One classical, one contemporary. Together they carry the weight of the mahi and the warmth of the people it serves.

TĀNE WHAKAPIRIPIRI — MEN'S WELLBEING SERVICE

How we *speak & listen*

The brand voice is the organisation's character. It should always feel like a person, not a policy.

Grounded

Rooted in place and kaupapa Māori. The voice speaks with earned authority — not loudly, but with quiet certainty.

Not: distant, academic, or bureaucratic

Inviting

People arriving in difficult moments need to feel welcome before they feel helped. Language is an open door — warm without being performative.

Not: clinical, transactional, or procedural

Honest

No jargon. No over-promising. Honest language builds trust — especially with people who have been let down before.

Not: promotional, vague, or overly formal

VOICE IN CONTEXT

CRISIS / SUPPORT

*"You are not alone.
We are here."*

Steady. Simple. Direct.

NAVIGATION / UI

*"Get in touch — we'd
like to hear from you."*

Warm. Human. Action-oriented.

ABOUT / STORY

*"Rooted in Hauraki.
Walking with whānau."*

Grounded. Cultural. Confident.

Breathe. *Give space to rest.*

Layout is not just organisation — it is the feeling of the page. Generous spacing creates calm. Calm creates trust.

Generous Whitespace

Space is not empty — it is breathing room. Minimum 48px between sections, 24px between elements. Never crowd the page. Let each item land before the next arrives.

Clear Hierarchy

One dominant headline. Supporting body. A quiet label. Never more than three levels of visual weight on a single screen. The eye should know instantly where to go first.

Left-Anchored Structure

Content reads left-to-right, top-to-bottom. Anchor key identifiers — labels, section names — to the left. Centre-align sparingly: display headlines only.

Depth Through Layers

Use the three background tones to create depth without shadows or heavy borders. Cards lift off the page through colour alone, keeping the design clean and uncluttered.

IMAGERY DIRECTION

The feeling *before the words*

Photography sets the emotional register before a single word is read. The brand draws from landscape, marae, and the quiet dignity of daily life in Hauraki.

LANDSCAPE & PLACE

Hauraki land, tidal estuaries, native bush. Dusk light. Quiet — not dramatic. Images that feel like belonging, not tourism.

PEOPLE & WHĀNAU

Warm, natural light. Candid moments. Dignity always. Never clinical or posed. Show the humanity of connection and support.

LIGHT & HOPE

Teal-toned light, threshold moments, open doorways. Images that suggest possibility — not arrival, but the step toward it.

AI-generated visual exploration guided by the cultural and emotional direction of the Hauraki brand.

PHOTOGRAPHY GUIDELINES

✓ USE

- Natural, muted colour grading
- Warm shadows and soft light
- Subjects photographed with dignity and agency
- Images from or of Hauraki specifically
- Quiet, contemplative compositions

x AVOID

- Generic stock photography
- High-contrast dramatic edits
- Images that centre trauma visually
- Bright, high-saturation colour treatments
- Imagery that doesn't reflect te ao Māori values
